RESOLUTION BY THOMAS.

Fernstrom Gives Shoup a Few Pointers on Law-Black's Ordinance Laid on the Table.

A resolution was introduced by Thomas at the adjourned session of the city council last night which had for its ultimate purpose the suspension of two city ordinances for a period of 90 days, so that it would not be necessary to have the payrolls of the police department certified to by the chief or any official of the department and also doing away with the approval of applications for liquor licenses by the chief of police during the suspension of the ordinance. The resolution, which follows in full, was defeated by the anti-Sheets faction:

RESOLUTION BY THOMAS.

"Whereas, Owing to the contention as to whether George A. Sheets was or was not confirmed as chief of police of Salt Lake City, and the refusal of a majority of this council to recognize any acts of George A. Sheets as chief o pole e, which has resulted in the police force of Salt Lake City not receiving their pay for March and the non-issuance of a large number of licenses to liquor dealers, therefore be it.

Resolved, That the ordinance passed June 20, 1893, and approved June 1893, wherein it is required that the pay-roll of the police department of this city must be certified to by the chief of police before payment can be made upon same, and section 6 of an ordinance passed Dec. 15, 1902, and approved by the mayor Dec. 17, 1902, wherein it s required that all applications for li enses to sell ilquor must be approve and endorsed by the chief of police of this city, be and are hereby suspended for the period of 90 days, or such less time as may be required to have the question as to whether George A. Sheets is or is not chief of police of Salt Lake City passed upon by the courts.

"It is understood that the passage of this resolution does not in any way rec. ognize George A. Sheets as chief of po-lice of Salt Lake City, such question being relegated to the courts.'

FERNSTROM VS SHOUP. County Property.

President Cottrell was of the opinion hat the ordinances could not be sus nded in such a manner. Assistant City Attorney Shoup gave an opinion to the effect that such action would be perfectly legal, that the city council certainly had the right to suspend an dinance. Fernstrom took issue with Mr. Shoup as to the legality of the act. He argued that the council could not amend an ordinance by passing a resolution and that the city auditor could the salaries under such a res-He further characterized it olution. as a trap to put Auditor Reiser in the hole.

DAVELER SARCASTIC.

Daveler replied to Fernstrom in a ery sarcastic speech in which he said that Fernstrom did not know the difrence between carcasm and fact. Thomas urged the passage of the reslution because he said it would be three or four months before the matter would be settled in the court and he hought the policemen should have their say. Eardley contended that the res lution was useless because a resoluion had already been passed by the ouncil authorizing Capt. Burbidge to approve the payrolls, but that it lying in the ctiv recorder's office and had not been sent to Capt. sidge yet. He thought that the resolution heretofore passed would settle the matter if caried out. A vote was then taken which resulted in the resolution benig defeated.

BLACK'S ORDINANCE.

Another fight came up on the passage repealing of the ordinances requiring the case or ponce to certify to the pay-rolls and to endorse applications for iquor licenses. After considerable argunt, the ordinance was laid on the table for an indefinite period, upon motion of Thomas.

SMOKE ORDINANCE PASSED.

Daveler's new smoke ordinance, requriing smoke consumers to be placed on all boilers of 10-horse power or over, was passed. The old ordinance placed the limit at 20-horse power boilers.

STORM OVER LEILICH.

How it Broke in the Methodist Church A Few Days Ago.

The report in the "News" relative to the recent quarterly conference at Liberty Park Methodist church, and the lively experiences incident thereto, is fully borne out in the following caustic comment from the Utah Christian Ad-

put in his unwelcome appearance. He was asked by the pastor to leave the house, which he refused to do. The pastor's reasons for asking him to leave hurch; that he had no part in the con rence, that he had not been invited by the pastor or any member of the hurch; that he was an enemy of the pastor, as he had previously stated to the pastor in the presence of a wit ness that he would not recognize him or any other preacher who signed the petition asking the withdrawal of Dr. Leilich from the mission; that since said statement the pastor had offered to shake hands with him and he had refused to accept the hand of the pastor. The pastor gave a further reason that the said Mork was not there for any good to either the pastor or to the burch, and that his motive for comin church, and that his motive for coming was an evil one. But Mork refused to go. Dr. Leilich, in whose interest he was there, sustained his refusal to leave. The official members are extremely wrought up over the affair. They state that Mork has gall enough to kill a brass monkey. His conduct was unmanly, unwise and unchristian But as some of the people at Bingham who were decoyed into a mining ect with him and Dr. Franklin a fev years ago, say, what else can you ex-pect from this fellow? Bishop Warren will be urged to take some radica action, and get rid of this man Leilich and not allow ethical courtesies to de ter him just because Leilich is an ap pointee of Bishop Fowler's instead of Bishop Warren's."

Jacob Schulthess Writes Interesting Letter From Manila.

CLEAN AND PRETTY AGANA.

Manila Well Policed and Comparatively Free From Crime-Very Little Sickness There.

The following interesting letter dated Manila, P. I., March 9, 1903, and addressed to Elder J. G. Kimball of the First Council of Seventies, is from Jacob Schulthess, a young Salt Lake stenographer, who recently passed a very creditable examination for government service in the Philippines, and left for that section shortly after:

"It affords me pleasure to write you taht I arrived safely on Feb. 25. We had pleasant weather nearly all the time. No stops were made until we reached Guam. We did not even see the Sandwich Islands, as we were 350 miles distant at the nearest place.

"At Guam, which is a very pretty place, we were permitted to go ashore, and some of the soldiers, (of whom over 1,000 were on board the transport), took us to the landing in one of the life boats. The harbor is full of rocks and we reached the landing, about three miles away, with some difficulty, a ter getting on the rocks about a dezen times. We went to Agana, the capital of Guam, five miles away, in one of the two wheeled carts which the natives have, drawn by a water buffalo. It was an interesting ride, though rough, and is not to be forgotten. Agana has about 6,000 inhabitants, and is very clean. The roads are better than any I ever saw in Utah, outside of the paved streets in Salt Lake. It was very hot and we all got sunburned, and it rained about every half hour, but it is so hot that we got dry again in a few minutes when the sun came out. through groves of cocoanut and banana rees nearly the entire distance, and the sland has to be seen to be appreciated, It is, however, somewhat lonesome to ive there, as there is no regular line of steamers that calls there. transports are about the only boats that

We dropped anchor in Manila Bay at 12 noon of the 25th. The weather was fine, and we were glad that the journey was at an end. dry season here, and we do not expect any rain for about three months yet. It is very warm during the day, and cool and very pleasant at night.
"One has to dispense with the luxur-

ies of life here unless he has a good supply of means, but for all that, conlitions are not half as bad as they were epresented to me by people in Lake. There is very little sickness here at present, not as much as there was in Sait Lake when I left there. The city s well managed and well policed, and I feel much safer on the streets of Ma-nila at night than I did at home. There is very little crime, and the prisons are nearly empty, which speaks well for Apri the present administration, and for the 10th. eople generally. "I was assigned to the attorney gen-

eral's office on my arrival here, and they have kept me busy ever since. "Altogether, I like this city very much. It is one of the busiest towns I ever struck. Transportation facilities on land are very poor as yet, and rail-roads are badly needed.

"There are some very nice places in and around the city, small parks where one can go in the shade and rest a while when it is hot, and an America band plays at the large park down at the beach every night. The natives als are very good musicians. oand plays the Star Spangled Banner every man, woman and child take off heir hats, and the natives are getting o like the Americans a little better than they did at first.
"About half of the government em-

ployes are natives, and many of them are very bright men.

SEVERE ATTACK OF GRAP Cured by One Bottle of Chamberlain's Cough Remedy.

last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Ehortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the oughing spell would come on at night would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep per-fectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeble surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried t for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu."
